

OUR JOURNEY

Comtel Communications was formally established in February 2005. In 2004 we built a Wireless Network (from the Garage) and began providing voice services to a Call Centre (they could not get Telkom connectivity) and a Residential Gated Community (Villa Italia in Century City).

While continually adapting to a dynamic market and ground-breaking regulatory changes, our proactive and systematic approach made it possible to continually improve & upgrade the quality of services we provided.

We grew from strength to strength ... and with all our collective energy we fed Baby Comtel.

WE CONTINUALLY IMPROVE & UPGRADE THE QUALITY OF THE SERVICES WE PROVIDE!
